

## DIRECTOR'S REPORT

JARED BOUDREAUX – JUNE 7, 2022

---

### OVERVIEW

- The Directors Conference in Vail as well as the CLiC Rural Library Meetup in Durango were both very informative and enlightening
  - o CLiC focused on Customer Service; I am working on a small presentation to relay information to the staff
  - o Directors Conference focused on numerous topics including diversity, book challenges, staffing, and public service
    - Stemming from this event, the SW region of Directors (roughly Cortez to Pagosa) will be planning our own meeting to focus on issues more pertinent to our specific area
- Summer Reading plans are underway
  - o The program will run during the month of July and our children's librarian is working with Mancos United to coordinate summer activities

### UPDATES

- Prior to my arrival, book orders were done quarterly with smaller purchases interspersed between. Going forward, we'll be making smaller, monthly book orders in order to better stay current with new releases
- Julia Whelihan is our new Volunteer Coordinator
  - o She will be reaching out to the community for potential volunteers and working to match those volunteers with the staff member / library section they are best suited to assist
- Our teen area has been renovated / opened up this past weekend, be sure to check it out if you haven't already!
  - o The children's room will get a similar treatment later this month. It will be a little more extensive than the teen area and therefore we may close the children's room for a couple days with limited access.
- We've finally received all of our quotes for a new library camera system, I will present them to the Board at our next meeting and we'll hopefully get them installed and operational soon
